

Standard Questions

Foresight Associates

1. What salary level are you looking for with regard to this position?
78,000 - 85,000
2. Do you have a US work permit/US passport? If you require sponsorship please clarify details.
I have a US work permit. My current visa status is F1. I am on my one year Optional Practical training (OPT) which expires on 02/29/2019. Till the expiration I can legally work for any company and do not need sponsorship. After 02/29/2019, I need the company to sponsor for my H1B visa and would be on 24 month STEM extension. As long as the company files for H1B visa, I can work and do not need to worry about H1B being picked up in the lottery as I will be on 24 month STEM Extension.
3. Are you able to travel outside of the US for work purposes?
Yes
4. What is your notice period?
Less than one week
5. This job is located in Minneapolis, Minnesota and is an in office position typically 9-6, are you able to meet these requirements?
Yes
6. Please tell us in one to two paragraphs why you would like to work at Foresight Associates.

Being an ardent proponent of data-driven methods to gain insights about company performance and take business decisions, I worked on data projects in various fields/industries including Automotive manufacturing, food & beverages, health science, and Natural Language Processing. I believe Foresight Associates passion for exploring data to provide analytical forward-looking insights, and designing new methods for diverse industries gels nicely with my interests.

Secondly, the companies passion for leaving a global footprint by working on diverse projects across the globe motivates me to be part of the journey. Third, the opportunity to work on some of the global brand's Foresight associates work on would be challenging and puts my skills to test. Finally, I firmly believe small organizations have the most energetic, passionate people which makes work exciting and establishing myself in the company.
